SCRUM Meeting 4 for FETA
Prepared by: Kornel Harmati
Meeting Date: 8 November 2021

Meeting Attendees

1. Kornel Harmati
2. Brandon Nguyen
3. Keegan Choudhury
4. Feier Chen

Meeting Agenda Items

- Discuss next steps in the project from design perspective
- User study discussion

Status Update Since Last Meeting
Accomplishments:

- Functional interface for users in the database.
- Functional express prototype that can serve content over HTTP.
- Working frontend design

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Implement (basic) Firestore user functions	Kornel	Yes (☞ﾟヮﾟ)☞
Figure out fonts to use on webpages	Keegan	Yes
Fix toggle button for dark/light mode	Brandon	Yes
Figure out how to save status of dark/light mode from last login	Feier	Yes
Design a colour scheme for dark mode	Feier	Yes
Decide project organization for views/routes/submodules used in express	Brandon	Yes
Create routing system using express	Brandon	Yes

Before The Next Meeting

Plans:
- Complete all assigned tasks from this meeting by the end of week.
- Find subjects to test our minimum viable product from Sprint 1.

Task Assignments:

Task Description	Assigned to
Create blank page views	Keegan
Create page templates (headers, navigation)	Feier
Implement Firestore functions for goals	Kornel
Improve routing by splitting into multiple routers, implement view templating	Brandon

Minutes from Previous Meeting

During the last meeting, we planned out our tasks and goals for sprint 2 and also how to connect the front end with the back end. We decided to have a minimal viable product at the end of sprint 2. We decided that we need to figure out the basic layout for different pages and the theme color for dark mode. We discussed the backend functions needed for our minimal viable product. We need to get the add, remove, and edit transaction functions working for the backend. We need to get the transaction, statistics, and dashboard pages working for the front end.
